**Local Honey and a variety
of bee supplies will be
available for purchase at
a discounted price.**

Honeybees are vital to sustaining our food supply and are mysteriously disappearing.. This phenomenon is known as Colony Collapse Disorder. Join EcoVillage Farm and other concerned individuals in learning what we can do to help save our vanishing honeybees. Workshop presenter: Khaled Almaghafi, apiculturist (professional bee-keeper). Areas of focus will include: *Pesticides *Climate Change *GMO Crops *Parasites and Pathogens *Toxic Environments.

Don't miss it!!

EcoVillage Farm Learning Center is a Project of Earth Island Institute
